Istanbul, Turkey • (537) 585-0682  
yunusb.dev@gmail.com  
www.yunusbeytut.com

**Results-driven RPA Developer** experienced in **Power Automate Desktop** and **UiPath**, designing and delivering **end-to-end automation workflows** that enhance efficiency and reduce manual work. Skilled in **Python, C#, SQL, Excel automation, and API integrations**, with additional experience in **React** for building interactive automation dashboards and web-based tools. Passionate about leveraging automation to streamline business processes and deliver measurable impact.

## Professional Experience

Kora-Analitik, Istanbul, Turkey, Jun 2025 — Aug 2025  
RPA Intern

- Designed and developed automation workflows using Power Automate Desktop and UiPath, focusing on efficiency and error reduction.
- Created Excel-based data validation and approval automation to manage stock requests, generate logs, and track workflow status.
- Built a Nike product data extraction bot to scrape product details (name, price, code) and export into Excel.
- Implemented end-to-end automation flows including error handling, logging, and data integrity checks.

### Highlight Project 2025

-Stock Request Validation System (Excel Automation): Automated validation of stock demands with multi-sheet comparison, approval logic, and logging.  
-Web Scraping & Data Export Bot: Developed automation to collect product data from e-commerce platforms and organize it into Excel.

## Education

Ataşehir Adıgüzel Vocational School, Istanbul  
Associate Degree, İstanbul, Jun 2023 — Jun 2025

- GPA: 3.42/4.00
- Completed core courses including **Algorithms & Programming**, and **Web-Based Programming**
- **Graduation Project:** Developed a React-based Grade Tracking System

## Technical Proficiencies

**RPA Tools:** Power Automate Desktop, UiPath  
**Programming :** Python, C#, JavaScript (React basics)  
**Data & Databases:** SQL, Excel automation, structured data processing (CSV, JSON)  
**Automation Expertise:** Web scraping, API integration, data validation & logging, workflow optimization  
**Other:** Process analysis, debugging, exception handling, documentation

## Languages

Turkish(Native), English (Upper-Intermediate)
